

Are we just one election away from losing our freedom?

Yes. Why? Because the Democrat Party of John F. Kennedy is gone, replaced by leftists who crave a new world order and the socialist platform of Bernie Sanders, Alexandria Ocasio Cortez, and Ilhan Omar. Make no mistake. They are the future of the Democrat Party.

The only alternative is someone who embraces our heritage & puts America's interests first.

That doesn't mean that you should like the President's tweets. But please recall that Abraham Lincoln was ridiculed as a divisive rube, and Winston Churchill was called a buffoon. And like President Trump, Churchill was despised by the establishment of his day. Instead of words, what should matter is what President Trump has done on our behalf.

So please note that President Trump & Vice President Pence have:

- Stood firmly with police to quell senseless violence in American cities, while simultaneously requiring by executive order that law enforcement agencies meet new higher standards related to the use of force or lose federal funding.**
- Withdrawn from the flawed UN arms deal that gave Iran billions of dollars and provided a despotic regime with a pathway to nuclear weapons.**
- Replaced one sided trade deals with new agreements with Canada, Mexico and China that level the playing field for American companies and workers in the United States.**
- Secured America's borders and proposed to Congress immigration reform that will expedite the review process for asylum seekers, reunite families and protect immigrant workers from exploitation, while also bringing the world's best & brightest to America.**
- Made the largest ever increase in funding for child care, signed a parental leave order for federal workers, increased the child tax credit, created the Farmers to Families Food Program and began the import of pharmaceuticals to lower prescription drug costs.**
- Defeated ISIS in Iraq, brought troops home from Afghanistan and orchestrated a historic peace agreement with Israel, the United Arab Emirates and Bahrain, for which President Trump has been nominated for the Nobel Peace Prize.**

And they did this while confronting a corrupt and entrenched beltway bureaucracy that abused its power in ways that make Watergate look like an episode of the Keystone Cops.

Leaders are defined, not by their words, but rather by their actions.

Please join us in voting to reelect President Trump.

PLEASE VOTE ON NOVEMBER 3RD!

Paid for by the Cuyahoga Valley Republicans.
